

DIMA PCShade/LightShade Small (RACER) PCShade/LightShade Small Mask (RACER)

Sono indicate le misure massime di PCShade/LightShade Small (RACER) che tuttavia possono variare di qualche decimo di millimetro, da usare come riferimento approssimativo per verificare se la stampa ottenuta risulti in scala 1:1. La dima va poi ritagliata per la prova sulla visiera del proprio casco.

Here you can find the maximum dimensions of PCShade/LightShade Small (RACER) that can differ of some tenth of millimeter . They are to be used as approximate reference to verify if the print matches 1:1 scale. The mask has then to be cutted for your helmet visor fitting test.
